EDUCATION

BNM Institute of Technology, Bengaluru

Bachelor of Engineering in Computer Science and Engineering

Dec 2021 – May 2025

CGPA: 9.54 / 10

SKILLS

- Programming Languages (C, Python, Java)
- Databases (MySQL & MongoDB)
- Frontend (Bootstrap, Tailwind, ReactJS, NextJS)
- Backend (Django, ExpressJS, NodeJS, Convex)
- Git & GitHub
- API Testing (Postman & ThunderClient)
- Authentication (JWT & Clerk)
- Google Workspace

EXPERIENCE

Web Developer Intern

Amiti Software Technologies (On-Site)

Oct 2024 - Mar 2025

Bengaluru, Karnataka India

- Developed multiple front-end and full-stack applications, including a news site, weather app, eCommerce platform, chat app, and a scalable online IDE.
- Worked with both the MERN stack and Next.js to build responsive and efficient web applications.
- Gained hands-on experience in designing, developing, and testing APIs using Postman and Thunder Client.
- Worked extensively with MongoDB, Express.js, React.js, Node.js, Next.js, Git, and API testing tools.

PROJECTS

ConvoX

May 2025 - June 2025

- ConvoX is a real-time language exchange platform with messaging, voice, and video interactions.
- Includes features like typing indicators, reactions, screen sharing, and session recording for richer engagement.
- Built with React, Express, MongoDB, and Tailwind CSS for a responsive and reliable experience.
- Uses TanStack Query for data fetching, and Stream for scalable communication

NeuroFit

April 2025 - May 2025

- NeuroFit is an AI-powered fitness platform offering personalized workout and diet plans.
- Features an intuitive voice interface for hands-free, real-time interaction and guidance.
- Frontend built with Next.js, TypeScript, and Tailwind CSS for a smooth and modern user experience.
- Backend integrates Convex, Clerk, Vapi AI, and Gemini AI for seamless auth, smart voice control, and dynamic content generation.

Code Craft

Mar 2025 - April 2025

- Code Craft is an interactive online IDE supporting multiple programming languages.
- Built with Next.js, TypeScript, and Tailwind CSS for a modern user experience.
- Uses Convex and Clerk for backend, authentication, and secure data handling.
- Enables smooth solo and team workflows with real-time collaboration features.

ACHIEVEMENTS

Best Project: uFood – Your Meal, Your Way, Say Goodbye to Food Waste

[Paper Link](#)

- Developed a smart meal customization platform to reduce food waste through user - centric personalization.
- Awarded “Best Project” for innovation, design, and sustainability impact.
- Presented at IITCEE 2025 and published on IEEE Xplore for environmental contribution.

CERTIFICATIONS

- Ethical hacking - NPTEL October 2024
- Data Visualization with Python - IBM May 2024
- Cloud Computing - NPTEL April 2024
- Python for Data Science, AI and Development - IBM March 2024
